Mine had been packed onto a personal computer I no longer make use of now therefore cannot very easily verify on that.

I cannot remember as it offers been too long back now, but I do believe that amount is also used to enroll your M9 with Leica.. @Ict-If you purchase a fresh Michael9 there can be a Brown number designated to that specific video camera (who knows what Bronze means) in the Manual/paperwork that enables you to upload LR at no charge since LR as you must know is included with the new cameras.. What Leica model perform you own personal then? @Phil-If my memory space serves me properly, I believed the Color offered you LR like enhancements.. The Leica paperwork must become obvious about this stage though
